Crumlin United Performance Testing - sample session

Fictional example. No real player or testing-group data.

10m Sprint	2.05 s	
30m Sprint	4.92 s	
Flying 20m *	2.87 s	
Agility	5.84 s	
Slalom Dribble	15.30 s	
Shot Accuracy	4/6	
Countermovement Jump	24.6 cm	

Player profile

Strengths

Acceleration and speed stand out in this example profile. Keep building consistent sprint technique.

What to work on: Finishing consistency

Use a clear target and repeat the same shooting setup. Focus on a balanced approach and controlled contact before increasing power.

Second focus: Ball mastery

Build regular ball touches into your routine. Practise a close cone weave using both feet, keeping the ball close and looking up between touches.

GymLive coaching tip: Record a starting point, practise consistently and retest using the same setup.

Demo bars are illustrative comparison values, not measured cohort percentiles.

* Flying 20m = 30m minus 10m; not a separately timed sprint. Demo ratings are illustrative.

SAMPLE ONLY - Fictional player, AI-generated portrait and illustrative results.

A personalized report follows a GymLive managed testing session.
